Workplace Violence Prevention Program

The Workplace Violence Prevention Program (WVPP) provides the coordination of resources that prevent and respond to workplace violence within the Defense Health Agency National Capital Region Medical Directorate.

We aim to increase awareness of workplace violence through the following opportunities:

- Education of Leadership and Management on workplace violence and prevention.
Connection with Service-Related
- Programs addressing work-life balance and wellness.
- Consultation with departments and programs to identify procedures in the evaluation and prevention of workplace violence.
- Respond to workplace violence incidents.

We seek to empower leadership, management, employees and contractors in reporting workplace violence to create a healthy and safe workplace.

We encourage you to report any incidents of workplace violence to your Site Point of Contact or WVPP. Incident forms can be found on our website at: <http://www.capmed.mil/EmployeeServices/WVP/SitePages/Home.aspx>.

In addition to reporting a workplace violence incident, please contact WVPP if you are interested in our training and/or consultation services regarding workplace violence at your site.

Lastly, we encourage you to seek support through the available service-related programs at your site.
